

ADDENDUM NO. 1

Date: 04/01/2025 This Addendum is issued to modify and clarify the above-referenced Request for Proposal/Quotation documents and is hereby made a part of the Contract Documents. All bidders shall acknowledge receipt of this Addendum with their submission.

The Overall price shall be calculated by multiplying the unit price by the quantity discrepant added to the total bid.

Name/Title _____ Signature _____ Date _____

Item description		Unit bid price per sq. ft.
Paint removal		\$
Paint application		\$

Item	Required Information
Estimated Project Duration	Total number of working days _____
Proposed Completion Date	Expected date of final completion _____
Personnel Count	Estimated number of personnel assigned to the project _____

Equipment Capability Specification

Each bidder shall demonstrate that it possesses at least one piece of equipment capable of applying pavement markings with a minimum 36-inch-wide paint applicator and pressurized bead application. The equipment shall meet the following requirements:

- A Paint applicator width of not less than 36 inches to allow full-width runway/taxiway markings in a single pass.
- A pressurized bead-dispensing system that applies glass beads to the wet paint at the time of application to ensure proper embedment and retro-reflectivity.
- The equipment shall be suitable for airport pavement marking operations and capable of maintaining line uniformity across the full applied width.
- The airport reserves the right to review the equipment list and determine whether the proposed equipment is adequate.

Item No.	Equipment Name / Type	Manufacturer	Model	Quantity	Primary Use on Project
